

Flatbed Semi-Trailer for Heavy Cargo

This flatbed semi-trailer is designed for transporting heavy and oversized loads. It features a robust steel frame, multiple axles for stability, and a flatbed platform for versatile cargo placement.

Overview

Versatile Heavy Cargo Transport

This flat transporter semi-trailer is engineered to meet the diverse requirements of heavy-duty logistics and industrial transport. Featuring a robust steel frame and a flatbed platform, it provides a stable and flexible solution for oversized or heavy cargo. Designed for reliability, the trailer incorporates essential safety features including side reflectors and a rear underrun protection device to ensure secure operations on the road.

Technical Specifications

Safety Equipment

- Side Reflectors
- Rear Underrun Protection Device

Design Features

Robust Steel Frame, Multi-Axle Configuration, Flatbed Platform

Applications

Primary Applications

Construction • Logistics • Industrial
