

Flatbed Toaster with Variable Heat Control

This flat toaster is a versatile appliance for toasting bread, rolls, and pastries. It features a rectangular toasting surface with a wire rack and variable heat control.

Overview

Versatile Flatbed Toasting Solution

This flatbed toaster is designed for maximum versatility, allowing you to toast up to four slices of bread, rolls, or pastries simultaneously. Featuring a 900W heating system with three quartz tubes, it provides consistent results with six levels of browning control. Its compact, durable design makes it an ideal choice for professional kitchens or countertop use where space is at a premium.

Technical Specifications

Power Consumption	900 W
