Overview

High-Efficiency Flexible Polishing Pads

These flexible polishing pads feature integrated abrasive grains with resin, designed to deliver superior grinding performance on stone surfaces. Engineered to achieve a high-gloss finish in a significantly shorter time compared to conventional polishing wheels, they offer both durability and consistent results. Suitable for a wide range of surface finishing applications, these pads provide an efficient solution for achieving smooth, professional-grade results.

Technical Specifications

Available Diameters

- 3 inch / 80 mm
- 4 inch / 100 mm
- 5 inch / 125 mm
- 6 inch / 150 mm

Available Grits

P50, P100, P200, P400, P800, P1500, P3000, BUFF
