

Flexible Cord - PVC Insulated, 300/300V

Flexible cord designed for light duty applications. Features a PVC insulation and sheath, providing good flexibility and resistance to abrasion.

Product Overview

Flexible PVC Insulated Cord

This flexible cord is engineered for light-duty applications, featuring durable PVC insulation and a protective sheath that offers excellent flexibility and resistance to abrasion. It is specifically designed for use in dry environments, making it an ideal solution for connecting low-power appliances and electronic devices. With a voltage rating of 300/300V and compliance with relevant European standards, this cable provides a reliable and safe connection for various indoor setups.

Technical Specifications

Voltage Rating	300/300V
Insulation Material	PVC
Conductor Material	Copper

Usage & Application

Common Uses

- Low-power appliances
- Electronic devices
- Light-duty equipment connections

Suitable Environment	Dry Environments, Indoor, Light Duty
