

# Flexible Gooseneck LED Inspection Light

This flexible inspection light is designed for illuminating hard-to-reach areas. It features a gooseneck design for bending and positioning the light beam as needed.

## ADDITIONAL IMAGES

## Overview

### Professional Inspection Lighting

This flexible gooseneck LED inspection light is engineered for demanding automotive diagnostics and maintenance tasks. Featuring a dual-light system with a 5W main beam and a 3W torch, it provides versatile illumination for hard-to-reach engine bays and transmission systems. Its rugged construction, combined with a magnetic swivel base, ensures hands-free operation and long-term durability in professional workshop environments.

## Performance Metrics

### Main Light Output

**500 Lm**

Main Beam

**180 Lm**

Torch

### Illumination Specs

- Color Temperature: 6000-7000K
- CRI Rating: >80
- Main Power: 5W
- Torch Power: 3W

## Power & Battery

### Runtime

**3 hours**

Main Light

**8 hours**

Torch

**Battery Capacity**

2600 mAh

## Durability & Build

### Protection Ratings

IP54 • IK07

### Drop Resistance

2 meters

### Construction Materials

PC, Rubber, Aluminum

## Features

### Key Features

- Flexible gooseneck shaft
- Magnetic swivel stand
- Dual light sources
- USB rechargeable
