Product Overview

High-Performance Flexible Irrigation Hose

This flexible PVC water hose is engineered from high-strength polyester and advanced synthetic materials, designed for durability and ease of use. It features exceptional resistance to corrosion, cold temperatures, and high pressure, ensuring a significantly longer service life compared to standard rubber or plastic hoses. The hose is highly versatile, with a modular design that allows for easy connection and compact storage when not in use.

Physical Properties

Available Colors	Blue, Yellow, Green
Material Composition	Polyester and high molecular synthetic material

Technical Specifications

Key Performance Features

- Corrosion resistant
- Cold resistant
- Over-pressure resistant
- Deformation resistant
- Anti-aging properties

Logistics and Handling

Metric	Value
Diameter	8 inches
Length	5 meters
Net Weight	3.0 kg
Gross Weight	3.4 kg
Packaging Dimensions	25 x 25 x 23 cm

Applications

Primary Applications

Agricultural Irrigation • Gardening & Afforestation • Drainage • Fire Fighting • Mining Oil Deposit • Shipbuilding • Construction • City Sanitation
