

Flexible LED Rope Light for Decorative Lighting

This flexible LED rope light is suitable for indoor and outdoor decorative lighting. The closely spaced LEDs are encased in durable, weather-resistant PVC tubing, making it ideal for accent lighting, outlining structures, and creating illuminated displays.

Product Overview

Versatile Decorative Lighting

This flexible LED rope light is designed for both indoor and outdoor decorative applications. Featuring closely spaced LEDs encased in durable, weather-resistant PVC tubing, it is ideal for accent lighting, outlining structures, and creating custom illuminated displays. The system offers a warm, ambient glow while maintaining low power consumption for efficient operation.
