

Flexible PVC Air Hose 3/8 inch 300 PSI

Flexible PVC air hose is designed for pneumatic tools and air compressors. It features a 3/8 inch inner diameter and a working pressure of 300 PSI.

Product Overview

Rugged Air Delivery Solution

This flexible PVC air hose is engineered for high-performance pneumatic applications in demanding environments. It features superior abrasion and kink resistance, making it ideal for use on rough surfaces like concrete. Built for longevity and reliability, this hose provides professional-grade durability for air compressors and pneumatic tools.

Key Features

Highlights

Abrasion-resistant, Kink-resistant, Sleeve protection, High durability, Flexible design

Technical Specifications

Performance Metrics

300 PSI

Max Working Pressure

0.375 inch

Inner Diameter

Operating Temperature

-40 to 54°C / -40 to 130°F

Fitting Type

1/4 inch (M) Inlet/Outlet

Available Configurations

Size Availability

Hose Diameter	Available Lengths
1/4 inch	25ft, 50ft, 100ft
3/8 inch	25ft, 50ft, 100ft
1/2 inch	25ft, 50ft, 100ft
