

Float Ball Valve

This float ball valve controls fluid levels in tanks. Its adjustable float arm ensures precise valve operation in plumbing, irrigation, and industrial systems.

Float Ball Valve	
Code	Spec.
G00001	1/2" High Pressure Part 1 Brass
G00002	3/4" High Pressure Part 1 Brass
G00003	1/2" Low Pressure Part 1 Brass
G00004	3/4" Low Pressure Part 1 Brass

Product Overview

Professional Fluid Level Control

Designed for precision fluid level management in tanks and reservoirs, this float ball valve offers reliable performance in demanding environments. Constructed from durable brass, the valve features an adjustable float arm that allows for accurate control over opening and closing mechanisms. It is a versatile solution suitable for a wide range of applications including plumbing, irrigation, and industrial fluid systems.

Technical Specifications

Available Sizes

- 1/2"
- 3/4"

Model Variants

Code	Size	Pressure Type
G00001	1/2"	High Pressure
G00002	3/4"	High Pressure
G00003	1/2"	Low Pressure
G00004	3/4"	Low Pressure

Material

Brass

Pressure Configurations

High Pressure, Low Pressure

Features

Key Benefits

Corrosion Resistant • Adjustable Float Arm • Threaded Connection • Green Manufacturing

Industry Experience

20 years

Years of Manufacturing Expertise
