

Floor Cleaning Head Attachment

This is a floor cleaning head attachment for cleaning equipment. It is used to effectively clean floors in commercial and industrial environments.

Product Overview

Professional Floor Cleaning Attachment

This floor cleaning head attachment is designed for efficient and thorough maintenance of various floor surfaces. Engineered for compatibility and durability, it serves as a reliable component for professional cleaning equipment. Its robust construction ensures consistent performance in demanding commercial environments.

Compatibility

Compatibility

Standard Industrial Vacuums • Commercial Floor Scrubbers

Design & Build

Material	Industrial-grade polymer and reinforced components
Cleaning Mechanism	Suction-assisted, Bristle-brush integration
