

Floor-Standing High-Fidelity Speaker with Multi-Driver Configuration

This floor-standing speaker provides a balanced and immersive audio experience thanks to its multi-driver configuration. The speaker enclosure is constructed from high-density wood with a premium wood veneer finish, minimizing resonance and delivering accurate sound reproduction.

Product Overview

High-Fidelity Floor-Standing Audio

The EM-1096FT is a floor-standing speaker system designed for immersive, high-fidelity audio reproduction. Featuring a multi-driver configuration, this unit combines a 5.25-inch woofer with dual 3-inch drivers to deliver balanced sound across the frequency spectrum. With versatile connectivity options including Bluetooth, USB, and AUX, it serves as a flexible audio solution for various professional and commercial environments.
