

Fluid Check Valve

This fluid check valve permits flow in a single direction. It automatically prevents backflow to protect equipment and maintain system integrity.

Overview

High-Performance 200cc Engine

This 200cc single-cylinder engine is engineered for reliability and robust performance. Designed with advanced manufacturing processes, it ensures stability and durability for demanding applications. It offers a balanced power output and is built to provide a comfortable operating experience with an extended service life.

Engine Specifications

Engine Type	Single-cylinder, four-stroke, air-cooled
Displacement	197 ml

Performance Metrics

Key Performance Indicators

11 kW

Max Power

8500 rpm

Rated RPM

13.5 N.m

Max Torque

Technical Details

Compression Ratio	9.0:1
Ignition Method	CDI
Starting Methods	Electric Start, Kick Start

Quality Assurance

Quality Compliance

Strict Quality Testing • High-Quality Standard
