

Fluid Check Valve

This fluid check valve allows flow in only one direction. It is suitable for preventing backflow in pipelines and equipment.

Overview

Performance and Design

This motorcycle is designed for efficiency and style, making it an ideal choice for both urban commuting and leisure riding. It features a robust, air-cooled four-stroke engine that balances power with responsive handling. With durable construction and a reliable braking system, this model offers a comfortable and safe riding experience for daily use.

Engine Performance

Maximum Power

8.2 kW

Max. Power

Maximum Torque

8.5 N.m

Max. Torque

Engine Type	Single cylinder, air-cooled, 4-stroke
Compression Ratio	9.0:1

Technical Specifications

Bore x Stroke	56.5 x 49.5 mm
Starting Method	Electric Start, Kick Start
Transmission	5-speed international gearshift
Lubrication System	Pressure splash

Dimensions and Capacity

Overall Dimensions	2040 x 760 x 1080 mm
Curb Weight	125 kg
Maximum Load Capacity	150 kg
Fuel Tank Capacity	12 L
Economical Fuel Consumption	d2.l/100km

Chassis and Handling

Tire Specifications

Position	Size
Front	2.75-18
Rear	3.00-18

Brake System	Front disc, rear drum
