

Fluid Dispensing Nozzle 130s

This precision-engineered nozzle provides optimal spray performance with a consistent flow rate. Constructed from durable materials, it offers extended service life and resistance to wear.

Product Overview

Precision Dispensing Nozzle

This precision-engineered nozzle is designed for high-performance fluid dispensing in industrial machinery. It ensures optimal spray performance and consistent flow rates, contributing to reliable operation. Constructed from durable materials, this component is built for extended service life and high resistance to wear in demanding production environments.

Compatibility & Series

Available Nozzle Series

- 110S
- 115AS
- 120S
- 130S
- 140S
- 225CS
- 226CS
- 230CS
- 235CS
- 240CS
- 225C
- 226C
- 230C
- 235C
- 240C
- 206A
- 206AS
- 205
- 205A
- 205S
- 450
