Overview

Industrial Fluid Control

This robust gate valve is engineered for reliable fluid flow control in demanding industrial and plumbing applications. Featuring a manual handwheel for precise operation, it ensures secure on/off functionality for pipeline systems. Built with durable materials, it is designed to withstand the rigors of various industrial environments.

Technical Specifications

Pressure Rating

150 PSI
Class

250 PSI
WOG Rating

Material Type	WCB, Brass
Operation	Manual handwheel
Installation	Threaded connection

Application

Suitable Applications

- Industrial pipelines
- Residential plumbing
- Fluid flow control systems
