

Fluid Handling Cylinder

This green cylinder is designed for fluid handling systems. It features brass-colored fittings and a directional flow indicator.

Product Overview

Intelligent Fluid Handling Solution

This compact fluid handling cylinder is designed for efficient pressure boosting in small-scale systems. With a flow rate of 15 liters per minute and a maximum head of 15 meters, it provides reliable performance for various fluid transfer applications. Its robust design features an IP44 protection rating and E-class insulation, ensuring durability and safety in demanding operating environments.
