

Fluid Meter for Liquid and Gas Measurement

This meter is designed for measuring the flow rates of both liquids and gases. It provides accurate and reliable measurements for a variety of industrial applications.

Product Overview

Precision Fluid Measurement

This high-performance fluid meter is engineered for precise measurement of both liquid and gas mediums. Designed to meet demanding industrial requirements, it ensures accurate flow monitoring and reliable performance in diverse operational environments. Its robust construction makes it an essential tool for maintaining efficiency and safety in fluid management systems.
