

Fluid Transfer Water Pump

This water pump is designed for fluid transfer applications. It is suitable for draining, irrigation, and water transfer tasks.

Overview

Professional Fluid Transfer Submersible Pump

This high-performance submersible pump is engineered for efficient water transfer and drainage tasks. With a robust 750W motor, it delivers an impressive flow rate of up to 12,500 liters per hour, making it suitable for demanding fluid management applications. Designed for reliability and ease of use, it features a 10-meter power cable to provide flexibility in various operational settings.

Technical Specifications

Rated Power	750 W
Voltage & Frequency	230V / 50Hz
Power Cable Length	10 M

Performance Metrics

Core Performance

12500 L/H
Max Pump Rate

8 M
Max Head Height

7 M
Max Submersion Depth
