

# Fluid Transfer Water Pump

These water pumps are designed for fluid transfer in diverse applications. The JQP60-1 and JQP70-1 models offer different motor powers, flow rates, and head capabilities to suit specific requirements.

## Product Overview

### Professional Fluid Transfer Series

The JQP series fluid transfer pumps are engineered for efficient and reliable liquid handling across various industrial and residential applications. Available in two distinct power configurations, these units feature robust suction capabilities and compact dimensions for easy integration into existing systems. With operational longevity supported by specialized motor designs, these pumps are built to maintain consistent performance under demanding conditions.

## Technical Specifications

### Featured Performance Metrics

**65 m**

Max Head (JQP70-1)

**50 L/min**

Max Flow (JQP70-1)

**8 m**

Max Suction

### Model Specifications

Feature	JQP60-1	JQP70-1
Power (kW/HP)	0.37 / 0.5	0.6 / 0.8
Max Flow (L/min)	40	50
Max Head (m)	40	65
Weight (kg)	6	9.5

## Operating Limits

### Temperature Ratings

- Max Fluid Temperature: 60°C
- Max Ambient Temperature: 40°C

## Logistics

### Logistics & Packaging

Model	Dims (mm)	20TEU Qty
JQP60-1	283x152x174	3132
JQP70-1	325x188x217	2220
