

Fluorescent Work Light with Hook

This durable work light provides bright illumination for garages, workshops, and construction sites. It features a protective housing, hanging hook, and long power cord.

Product Overview

Professional Fluorescent Work Light

This durable and portable fluorescent work light is engineered to provide reliable, bright illumination across demanding professional environments. Featuring a protective, rugged housing, it is designed to withstand the rigors of construction sites, automotive garages, and workshops. The integrated hook and extended power cord provide maximum versatility, ensuring hands-free lighting exactly where it is needed most.

Key Features

Design & Utility

- Protective tube housing for enhanced durability
