

Flush Mount Aluminum Handle for Sliding Doors and Drawers

These flush-mounted aluminum handles are suitable for sliding doors and drawers. The handles are available in a variety of shapes, including rectangular, oval, and square designs with recessed grips, and come in brushed and polished finishes.

Product Overview

Modern Flush-Mount Design

These flush-mounted aluminum handles are engineered specifically for sliding doors and drawers, offering a seamless, low-profile aesthetic. Designed with recessed grips for ergonomic operation, they blend functionality with a sleek, modern appearance. Available in multiple shapes and finishes, these handles are suitable for a wide range of cabinetry and architectural applications.
