

Fluted Carbon Steel Baking Pan with Removable Bottom

This baking pan features a fluted design and a removable bottom, ideal for creating intricate cakes and desserts. The non-stick coating ensures easy release and cleanup.

Product Overview

Professional Fluted Baking Solution

This fluted carbon steel baking pan is engineered for professional-grade performance, featuring a convenient removable bottom for flawless unmolding of intricate desserts. Constructed from durable carbon steel, it ensures even heat distribution for consistent baking results every time. The integrated non-stick coating simplifies the release process and makes cleanup efficient, making it an essential tool for high-volume kitchens and bakeries.
