

Foam Roller Sleeve 100mm

This 100mm foam roller sleeve is designed for smooth and even paint application. Its durable core ensures long-lasting performance and easy cleaning on small to medium-sized projects.

Product Overview

Professional Foam Roller Sleeve

This 100mm high-density foam roller sleeve is engineered for professional paint application, ensuring a smooth and even finish on surfaces. With a specialized 10mm pile and a 15mm diameter, it offers precise control for small to medium-sized painting projects. The robust construction ensures durability and simplifies the cleaning process, making it an ideal choice for reliable, recurring use.
