Product Overview

Professional Foldable Bolt Cutter

This high-leverage bolt cutter is engineered for durability and efficiency in demanding construction, maintenance, and repair environments. Featuring hardened CR-V blades and a robust carbon steel handle, it provides the strength needed to cut through bolts, chains, and rods with ease. The innovative foldable design ensures compact storage and portability, making it an ideal tool for professional technicians who require reliable performance on the go.

Technical Specifications

Available Sizes

- 18 inch
- 24 inch

Blade Material

CR-V (Chrome Vanadium)

Handle Material

Carbon Steel

Features & Design

Applications

Construction • Maintenance • Security • Repair Work

Key Features

Foldable Design, Powder Coated Handle, High Leverage, Rust Resistant

Grip Material

Plastic
