Overview

Professional Measuring Solution

This foldable measuring wheel is designed for high-precision distance tracking in both indoor and outdoor environments. Featuring a mechanical gear drive and an ergonomic, TPR-coated handle, it ensures reliable performance for professionals in construction, landscaping, and real estate. The compact, foldable design allows for easy transport without sacrificing the stability required for accurate measurements.

Technical Specifications

Maximum Measuring Distance	9999.9 m
Tolerance	$\pm 5\%$
Wheel Diameter	318 mm

Dimensions

Extended Height	1020 mm
Folded Height	250 mm

Features

Key Features

- Mechanical measuring gear drive
- TPR coated handle for comfortable grip
- Foldable design for compact storage
- Integrated pointer for precise alignment
- Resetting button for quick zeroing
- Anti-slip and resistance wheel surface

Applications

Ideal For

Construction, Landscaping, Real Estate Appraisal, Law Enforcement, Home Improvement
