

Foldable Platform Hand Trolley

This platform hand trolley is designed for efficient material handling. Its foldable handle allows for compact storage and easy maneuverability.

Overview

Professional Material Handling Solution

This foldable platform hand trolley is a robust and versatile tool designed for efficient material handling in warehouses, offices, and retail environments. Featuring a durable steel frame with a non-slip surface, it ensures the secure transport of heavy goods up to 300KG. The foldable handle design allows for compact storage, while the high-quality caster system provides smooth maneuverability and ease of use.
