

# Foldable Portable Laptop Stand

This laptop stand is made of premium iron and supports up to 15kg of weight. Large rubber pads on the top keep your laptop stable and protect it from scratches and slips.

## ADDITIONAL IMAGES

## Overview

### Ergonomic Workspace Solution

This foldable and portable laptop stand is designed to optimize your workstation by elevating your device to the perfect eye level. By allowing for height adjustments between 80mm and 420mm, it helps improve posture and reduces neck, back, and eye strain. Built for stability, the stand supports up to 15kg and features non-slip rubber pads to keep your equipment secure.
