

Foldable Rechargeable LED Work Light

This LED work light has a compact and foldable design for easy storage. It features high-intensity LEDs, a rotatable head, a durable body, a rechargeable battery, and a USB charging port.

Overview

Compact Illumination Solution

This foldable, rechargeable LED work light is designed for versatility and portability in professional environments. Featuring 16 high-intensity LEDs, it provides up to 250 lumens of brightness to ensure clear visibility. With a durable build and flexible, rotatable head, it is an ideal tool for tasks requiring adjustable, cordless lighting solutions.
