

Foldable Stereo Headphone with Microphone

This stereo headphone features padded earcups and an adjustable headband. Its integrated microphone is mounted on a flexible boom for optimal positioning and clear voice transmission.

Product Overview

Professional Communication Headset

The LKT-A62 is a professional-grade circumaural headset designed for clear communication and extended comfort. Featuring a closed-back design and padded earcups, it effectively isolates noise to help users maintain focus in busy environments like call centers or offices. The adjustable headband and flexible boom microphone ensure a secure, customizable fit for all-day wear.
