

Folding A-Frame Step Ladder

This step ladder has a folding A-frame design and multiple rungs for climbing. It is constructed from metal and includes rubber feet for added stability.

Product Overview

Professional A-Frame Ladder

The Folding A-Frame Step Ladder is a versatile tool designed for rigorous industrial and maintenance environments. It features a sturdy metal frame with a distinct A-frame construction that provides superior stability during use. Equipped with specialized black rubber feet, it ensures secure placement on various surfaces, making it an ideal choice for professionals.

Key Features

Safety Components

- Non-slip rubber feet
- High-visibility orange finish
- Reinforced metal structure

Capabilities

Industrial Grade, Maintenance Ready, Folding Design, High Stability

Construction

A-Frame
