

Folding Aluminum Hand Truck

This folding hand truck features a lightweight design and is easy to operate. The aluminum alloy surface is treated with oxidation to resist rust.

Product Overview

Versatile Folding Hand Truck

This folding hand truck features a creative, lightweight design constructed from durable aluminum alloy. Treated with positive pole oxidation for enhanced rust resistance, it offers long-lasting durability for various environments. Its compact, folding mechanism ensures it occupies minimal space when stored, making it an ideal solution for home, office, and travel needs.

Technical Specifications

Design Features

- Folding design for space-saving storage
- Lightweight construction
- Easy to operate
- Convenient to carry

Material	Aluminum alloy with positive pole oxidation treatment
Rust-Proofing	Yes

Compliance & Quality

Certifications	SGS Certified, National Patent
----------------	--------------------------------

Usage

Recommended Use
Home • Office • Travel
