

Folding Bicycle Lock

This folding bicycle lock is constructed with hardened steel links. It features a pick-resistant locking mechanism and includes multiple keys.

Product Overview

High-Security Folding Lock

This high-security joint lock is engineered with hardened steel links, providing maximum resistance against cutting and drilling attempts. Designed for versatility, it is suitable for bicycles, e-bikes, and motorcycles, making it an ideal security solution for high-theft areas. Its compact, foldable design ensures easy storage and transport, while the weather-resistant cover protects your vehicle's frame from scratches.
