

Folding Bicycle with Aluminum Frame and Disc Brakes

This folding bicycle is equipped with a 7005 aluminum frame and Avid BB5 series disc brakes. It has a SRAM X7 transmission system and Continental SportContact tires.

Overview

Urban Commuter Folding Bicycle

This folding bicycle is engineered for efficient urban commuting and recreational riding, combining portability with performance. Featuring a lightweight alloy frame and a reliable drivetrain, it offers a smooth and responsive experience for daily travel. The integrated folding mechanism allows for compact storage in tight spaces, while high-quality components ensure durability and comfort for the rider.
