

Folding Bicycle with Cargo Rack

This folding bicycle features a lightweight frame and adjustable components. Designed for urban commuting and recreation, it offers easy storage and portability.

Overview

Urban Commuter Solution

This folding bicycle is engineered for the modern urban commuter, combining portability with practical utility. Featuring a lightweight frame and a sturdy rear cargo rack, it is ideal for navigating city streets while offering easy storage in tight spaces. The adjustable seat and handlebars ensure a comfortable ride, while the included fenders provide protection against road debris.
