

Folding Bicycle with Steel Frame

This folding bicycle features a high-strength steel frame and reinforced seat. It is equipped with alloy V-brakes, Kenda tires, and a KMC chain.

Overview

Compact Urban Mobility

This folding bicycle is engineered for maximum portability and convenient storage in urban environments. Featuring a sturdy steel frame and a reliable folding mechanism, it is an ideal solution for commuters who need to integrate cycling with public transit. The design includes essential utility features such as mudguards and a rear rack to support daily recreational or work-related trips.
