

# Folding Bicycle with Suspension

This folding bicycle features a lightweight frame and a suspension system to enhance comfort. Its compact design and multiple gears make it suitable for urban commuting and versatile riding conditions.

## Overview

### Versatile Urban Mobility

This folding bicycle is engineered for the modern commuter, combining a lightweight frame with an integrated suspension system for superior comfort on varied urban surfaces. Its compact folding mechanism allows for effortless storage and portability, making it an ideal companion for daily travel and multimodal transit. Designed with a step-through frame and adjustable seating, it ensures an ergonomic and comfortable riding position for a wide range of users.
