

# Folding City Bicycle

This compact folding bicycle features a lightweight frame, ideal for urban commuting and easy storage. It is equipped with a comfortable brown saddle, adjustable handlebars, and front and rear fenders.

## Overview

### Urban Mobility Solution

This compact folding bicycle is engineered specifically for urban commuting, offering a perfect balance of portability and functionality. Its lightweight frame ensures easy handling, while the thoughtful design allows for rapid folding for convenient storage in tight spaces. Equipped with essential features like fenders and an adjustable setup, it is an ideal choice for navigating crowded city streets and short-distance travel.
