

Folding Electric Bicycle for Urban Commuting

This compact electric bicycle features a folding frame for easy storage and transport. It is equipped with a small electric motor to provide assisted pedaling.

Product Overview

Urban Mobility Solution

This compact electric bicycle is engineered specifically for the demands of urban commuting and recreational riding. Featuring a versatile folding frame design, it offers exceptional convenience for storage and multi-modal transportation. The integration of a reliable electric motor provides assisted pedaling, reducing rider fatigue and making city navigation effortless.
