

Folding Electric Bicycle with Step-Through Frame

This electric bicycle has a folding frame for convenient storage and transport. It features a battery pack located behind the seat post to provide power assistance.

Product Overview

Compact Urban Mobility

This folding electric bicycle is designed for efficient city commuting, offering a versatile step-through frame for easy mounting and dismounting. Its lightweight aluminum alloy construction ensures durability while maintaining portability for storage or transport. Equipped with a rear-mounted battery and reliable mechanical disc brakes, it provides a balanced and safe riding experience for professional urban users.
