Overview

Dual-function design: Hot pot and baking in one compact unit.

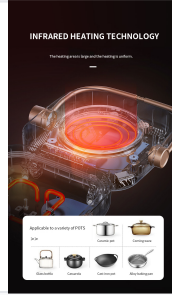

Perfect for gatherings, allowing for diverse cooking methods simultaneously.

Versatile 2-in-1 Cooking Solution

This innovative hot pot and baking appliance offers a dual-function design, allowing you to prepare soups, stews, and grilled dishes simultaneously. Engineered for convenience, it features independent temperature controls for both cooking zones and a space-saving vertical folding design. With its non-stick surfaces and smoke-reducing airflow technology, it provides a clean, efficient, and versatile cooking experience perfect for small kitchens and compact living spaces.
