

Folding Magnifier with Measurement Scale

This precision folding magnifier is designed for detailed inspection and measurement. It features a high-quality optical lens for clear and distortion-free magnification.

Product Overview

Precision Inspection Tool

This folding magnifier is engineered for detailed inspection and precision measurement tasks. It features a high-quality optical lens that provides clear, distortion-free magnification for professional use. The compact, folding design ensures easy storage and portability, making it an essential tool for quality control, inspection, and precision assembly environments.

Technical Specifications

Design	Folding
Key Features	Measurement Scale, Optical Lens, Compact, Portable

Applications

Ideal Applications

- Quality Control
- Visual Inspection
- Precision Assembly
- Dimensional Analysis
