

# Folding Metal Storage Trolley for Supermarkets and Warehouses

This folding metal storage trolley is designed for supermarket and warehouse applications. Constructed from durable metal, it features wire mesh sides and smooth-rolling casters.

## Product Overview

### Professional Logistics Solution

This versatile metal storage trolley is engineered for efficiency in supermarket, warehouse, and laundry environments. Featuring a collapsible design, it ensures optimal space utilization while providing secure transport and storage for various goods. The unit includes a horizontal half-door design for easy access to contents, supported by a durable frame suitable for demanding industrial use.

## Key Features

### Advantages

- Collapsible design for space-saving storage
- Horizontal 2-hinged half door for easy access
- Protects sensitive goods during transport
- Robust construction for industrial and service sectors
- Customizable designs available based on usage

## Application & Sectors

### Suitable Industries

Supermarket, Warehouse, Food Industry, Textile Sector, Service Industry

## Technical Specifications

### Surface Treatment

Galvanized • Powder Coated

### Build

Wire mesh sides with rolling casters
