

# Folding Plastic Platform Hand Truck

This hand truck is made with a durable plastic platform and a foldable steel handle. It is equipped with four smooth-rolling wheels for easy movement and compact storage.

## Product Overview

### Durable Folding Platform Truck

This folding plastic platform hand truck is designed for efficient material handling in warehouses, offices, and residential settings. It features a robust, damage-resistant plastic platform paired with a foldable steel handle, allowing for easy storage when not in use. Equipped with four smooth-rolling wheels, it provides excellent maneuverability for transporting various goods, making it an ideal solution for auto parts and aftermarket service environments.

## Construction & Design

Platform Material	Durable Plastic
Handle Type	Foldable Steel
Key Features	Foldable Handle, Damage Resistant, Smooth-Rolling Wheels
