

Folding Pruning Saw with Curved Blade

This folding pruning saw features a curved blade design for efficient cutting. The blade is made of high-carbon steel, ensuring durability and sharpness.

Product Overview

Professional Folding Pruning Saw

This folding pruning saw is engineered for high-performance gardening and landscaping tasks. Featuring a curved blade made from high-carbon steel, it provides efficient cutting power for small trees and branches. Its compact, folding design ensures safe storage and portability, while the ergonomic, rubber-overmolded handle promotes user comfort during extended operation.

Technical Specifications

Blade Length	7 inches
Blade Material	High-carbon steel
Handle Material	Plastic with rubber overmold

Features & Safety

Design Benefits

- Curved blade geometry for efficient cutting strokes
- Folding mechanism for enhanced safety and portability
- Lightweight construction for ease of use
- Reduced hand fatigue via ergonomic rubber overmold

Key Features

Curved Blade, Folding Design, Secure Blade Lock, Ergonomic Grip

Application

Primary Applications

Pruning Branches • Cutting Small Trees • General Gardening
