

Folding Road Bicycle

This folding road bicycle is designed for urban commuting and recreational riding. It features a lightweight alloy frame and a compact folding mechanism for easy storage and transport.

Product Overview

High-Performance Folding Road Bike

The Vector X27H is a premium folding bicycle engineered for world travelers and serious cyclists seeking all-out style and performance. It seamlessly combines the portability of a compact folding mechanism with the speed and responsiveness of a traditional road bike. Built for efficiency, it is an ideal solution for urban commuters who refuse to compromise on quality and agility.
