

# Folding Steel Shovel with Triangular Handle

This folding steel shovel is designed for outdoor use, including camping and gardening. It features a durable steel construction, a triangular handle for a secure grip, and a compact folding design for easy storage.

## Product Overview

### Professional Folding Steel Shovel

This compact and durable folding spade is engineered for versatility in outdoor, gardening, and emergency applications. Constructed from robust steel with a specialized black finish, it offers superior corrosion resistance and long-lasting performance. The ergonomic triangular handle ensures a secure grip, while the heat-treated blade provides enhanced strength for demanding tasks.

## Physical Dimensions
