

Folding Step-Through Bicycle

This folding bicycle is designed for portability and compact storage. The bicycle features a step-through frame, a sprung saddle, and full mudguards on both wheels.

Product Overview

Compact Urban Mobility

This silver folding step-through bicycle is engineered for maximum portability and convenient storage in urban environments. Featuring an upright riding posture and a comfortable sprung saddle, it offers a smooth experience for daily commutes or casual riding. The clever folding mechanism allows the bike to collapse into a compact form, making it an ideal solution for storage in limited spaces or transportation in vehicles.
