

Folding Two-Step Ladder with Handrail

This two-step ladder features a folding design for compact storage. It is constructed with a sturdy metal frame and includes a handrail and non-slip steps for enhanced safety and stability.

Overview

Compact and Secure Design

This two-step ladder features a folding design, allowing for efficient and compact storage when not in use. Built with a sturdy metal frame, it includes non-slip steps to ensure user safety during operation. The integrated handrail provides essential support and stability, making it a reliable tool for various elevated tasks in both domestic and industrial settings.

Technical Details

Product Code	2048f
Number of Steps	2

Features

Key Features	Folding Design, Handrail Included, Non-slip Steps, Sturdy Metal Frame
--------------	---

Application

Suitable Environments

- Domestic use
- Industrial use
