

Food and Beverage Processing Machinery Oil

Specialized oil used in machinery for food and beverage processing. It ensures the smooth operation and maintenance of industrial equipment.

Product Overview

High-Performance Machinery Oil

This specialized oil is formulated specifically for food and beverage processing machinery, ensuring optimal performance and equipment longevity. It is designed to meet the rigorous standards required in industrial food production environments. The clear, high-quality lubricant provides reliable protection for moving parts, helping to maintain efficiency and safety in cereal and beverage processing lines.

Product Features

Cap Color

Green

Primary Applications

Food Processing, Beverage Production, Cereal Processing, Industrial Machinery

Packaging Type

Plastic Bottle

Appearance

Clear yellow liquid
