

Foot Operated Air Pump

This foot-operated air pump is designed for inflating tires, sports equipment, and other inflatable items. It features a durable metal frame, a non-slip foot pedal, and an integrated pressure gauge for accurate inflation.

Product Overview

High-Efficiency Foot Operated Air Pump

This foot-operated air pump is engineered for reliable inflation of tires, sports equipment, and various inflatable items. Featuring a durable metal frame and a non-slip foot pedal, it ensures stability and ease of use during operation. The integrated pressure gauge allows for precise inflation, while the high-volume output design minimizes physical effort required by the user.

Construction & Design

Frame Material	Durable metal
Pedal Design	Non-slip foot pedal

Performance & Features

Key Performance Metrics

1 High-Volume
Air Output

Pressure Monitoring	Yes
---------------------	-----

Accessories & Compatibility

Included Accessories

- Hose
- Nozzle attachments

Applications

Primary Applications	Automotive, Sports Equipment, Recreational, Home Use
